

North Zone Bi-Monthly Trails Report

This report provides information on trails that have been opened by Forest Service personnel, contractors, partners and/or volunteers. If a trail is highlighted in green or amber, it has been worked on during the 2016 season. If a trail is listed but not highlighted, the notes will say when it was last cleared. If a trail is not listed at all, it most likely has not had any work done on it for the past few seasons.

Visitors are welcome to travel on any trails on the National Forest, but need to be aware of the potential for downfall if the trail has not been cleared. Even if trails have been cleared once, there could be new downfall from windstorms and wildfires that have occurred since the trail was cleared. Numerous trails on the Nez Perce-Clearwater National Forests were impacted in the 2015 season by wildland fires. In recently-burned areas, hazards exist and include falling trees, rolling logs and rocks, poor tread, and holes from burned-out stumps. Please consider these hazards when entering the area and make appropriate safety considerations, which may include changing your travel plans. Be aware that conditions may change quickly.

Visitors are encouraged to contact local Ranger District offices for current trail information and for possible closures due to fire. Please contact Adam McClory (208-875-1734), Tim Lewis (208-464-1269), or Kearstin Edwards (208-476-8344) for trail information on the Palouse or North Fork Ranger Districts. Information is also available at <http://www.fs.usda.gov/nezperceclearwater>.

Last Update: August 17, 2016

North Fork Ranger District Trails

Trail #	Trail Name	Status	Miles Maintained	Comments
11	Dan Lee Ridge	Cleared in 2015	5.3	Planned by September 7
